WITHDRAWAL OF AMERICAN SOLDIERS FROM MEXICO IS THE DEMAND OF CARRANZA

NOTE RECEIVED AT CAPITAL SAYS THEIR WORK IS FINISHED

No Further Need for Soldiers Across Border He Tells Washington.

NOT TO GIVE UP CHASE NOW

Officials in Washington Say Soldiers Will Keep Up Pursuit for the Present; Carranza Alleges Breach of Faith on Part of United States.

By Associated Press.
WASHINGTON, April 13.—General Carranza, in a note which arrived at the embassy here early today for presentation to Secretary Lansing, asked for the withdrawal of American troops from Mexico.

It raises a new issue in a situation already much complex, the outcome of which officials are reluctant to predict until they have gone over the communication carefully and considered what reply the United States will make.

In official quarters it was stated that the American troops will not be withdrawn, at this time at least, and that while the question is being discussed with General Carranza, the pursuit of the Villa bandits would be rushed with renewed vigor.

MEXICO CITY, April 12.—The note which the Mexican government has sent to Washington for delivery to Secretary Lansing, asks for "disoccupation of the territory occupied by American troops in the state of Coahuila, the party having been destroyed."

Throughout the note emphasis is laid on the fact that the American expedition was undertaken under a misunderstanding. Although, acting in good faith, the declaration made that the United States interpreted the first note of the defunct government as effecting a definite agreement between the two nations, and the intention of the facts of the expedition in this particular are founded on the circumstances that the expedition sent by the United States government to pursue Villa is without foundation by the non-existence of a previous agreement, formal and definite.

The note declares, therefore, that in consequence of an agreement having been reached as to the terms of the treaty to regulate the reciprocal passage of troops over the dividing line "the Mexican government judges it convenient to suspend for the present all discussion of aggression in this particular founded on the circumstances that the expedition sent by the United States government to pursue Villa is without foundation by the non-existence of a previous agreement, formal and definite."

What was intended by the note of March 10, it was pointed out, was to submit a proposal "by means of which the forces of one and the other country could reciprocally cross the dividing line in pursuit of bandits, and, unfortunately, there should be repeated along the border acts like those committed in Coahuila."

The fact that the United States has incorrectly interpreted the note of March 10 was called to the attention of the Washington government, the statement points out, in a note dated March 17. This note likewise emphasized that the passage of troops would be purely "only," and unfortunately from this time forward there should be repeated interruptions like the one registered at Columbus or at any other time whatever at any point of the frontier line.

On March 18, the statement continued, Frank Polk, acting Secretary of State, in an interview with the Carranza confidential agent, deplored not having received the observation of the Mexican government before American troops crossed the border, declaring that the passage of troops took place in the best of faith and in the belief that it would not be necessary to enter into more details of an agreement which was considered definite and ended.

These declarations made by Mr. Polk were later confirmed on March 23 to the Mexican representative by Secretary Lansing, and it was stated that he was sorry at having interpreted wrongly the contents of the said note in respect to the passage of troops and that they would not advance more to the south of the place where they now were.

Reference is also made in the note to the declaration made by President Wilson on March 26 saying "the expedition with the de facto government of Mexico for the purpose only of capturing the bandit Villa, whose forces have invaded territory of the United States, and on no pretext whatever would we order an invasion of that Republic for a violation of its sovereignty."

"That idea," continues the note, "published by his excellency, President Wilson, was rectified on March 31 by a message sent to our confidential agent in Washington in which he was instructed to call your attention to the idea indicated since the note of March 10, referred to the reciprocal passage of troops only in case that incidents like those which occurred at Columbus should be repeated."

AMERICAN FORCES CLASH WITH THE PARRAL GARRISON

Report That Troopers Were Fired on While Passing Through Town.

MEXICANS EXPLAIN INCIDENT

Major Gutierrez, Commander at Parral, Declared Population Became Alarmed When Americans Suddenly Appeared and Shots Exchanged.

By Associated Press.
SAN ANTONIO, Tex., April 13.—American forces have had an encounter with either Mexican military forces or the civilian population of Parral. No details are available.

The report came to General Funston from American Consul Fletcher. It stated that Major Gutierrez, commander at Parral, said there was a clash, which he termed unimportant, between American forces and the troops of the garrison or residents of Parral. The Americans entered the town with the intention of marching through, en route southward. An exchange of shots followed.

The inference is that the Americans continued to march through the town. They probably were the troops of Major Tompkins.

General Funston minimized the affair, saying the Americans appeared suddenly, unheralded and the Mexicans were alarmed.

WASHINGTON, April 13.—War Department officials, whom General Fletcher has been sending last night direct declined to discuss the report of firing on American troops in Parral, but indicated that such a report had been received.

It occurred at Columbus should be repeated.

In concluding, the note which is signed by C. G. Aguilar, secretary for foreign affairs, points out that the American expedition has fulfilled its object insofar as it will be able to do so, as the party headed by Villa has already been dispersed and finally because the Mexicans are in sufficient numbers pursuing them and more forces are being sent to exterminate the rest of the beaten party, the first chief of the Constitutional army charged with the executive power of the nation considers that it is "already time to treat with the United States for the withdrawal of their forces from our territory."

GERMAN ATTACK ON VERDUN HAS ONCE MORE FAILED

Formidable Drive is Checked and Only Fighting is in Comparatively Small Attacks.

By Associated Press.
PARIS, April 13.—Calm prevailed in the whole region of Verdun last night today's official communication says. Preparations were made by the Germans for an attack on Hill No. 304, but the attack was prevented by the French from being carried into effect. No other important developments were reported.

The German general attack on the left bank of the Meuse, which began on Sunday, is regarded as having been checked and the Germans are now attacking the previously relatively small attacks on both sides of the river, and to artillery operations.

When the remaining French positions along the river were taken, the French were able to engage the principal line to the west of the river from Avoncourt by Hill No. 304 and Dead Man Hill to the east. Only frontal attacks under difficult conditions were possible except at Dead Man Hill, where the Germans were able to attack through the ravine.

They tried to force a passage between Dead Man Hill and Cambrinus and to work around the south of the hill in order to envelop. After two days of hard fighting this maneuver failed and with it is believed to have collapsed the main idea of that part of the German attack. The small attacks which the Germans made north of the hill is not regarded as of a nature to modify the situation.

The military observers point out that General Petain once more has succeeded with a minimum of wastage in beating off with heavy losses the Germans' attack.

Since the first month of the war the output of 3-inch shells in France increased 3½ times, of larger shells 4½ times. French shells are being made as in August, 1914, and the manufacture of heavy guns has increased in the same ratio.

Submarines to Meet.
The Women's Suffrage organization for Connellville and vicinity will meet in the high school auditorium at 2:30 o'clock.

COMMISSIONERS AGREE; CONTRACTS FOR ROADS SIGNED

Altoona Concern Will Do Most of the Work in the County.

OTHER CONTRACTS PENDING

Bids on New Roads in Redstone, German and Luzerne Townships Likely to be Considered and Contracts Let at Meeting Today.

By unanimous agreement the contracts for county roads in Connellville, Upper Tyrone, Bullskin, Washington, South Union, Wharton, and Brownsville townships were signed by the commissioners yesterday and sent to the controller for approval.

Specifications for road work in Redstone, German and Luzerne townships were to be presented to the board this afternoon. It was generally believed until a few days ago that the court had passed on and approved these roads.

The approval of the contracts by the controller is by no means assured. Announcement was made last night he would consider them but he refused to state whether his approval would be given.

Contracts for the construction of the roads in Redstone, German and Luzerne townships, it was stated by the commissioners, will be let to the lowest bidder probably today if approved by the court.

The contract for the construction of the road in Fairbance borough was approved by the commissioners. This road is to be built in connection with the town council of Fairbance, and the contract was awarded to C. R. McIntyre, and the United Fire Brick Company.

The cost of the construction work was \$2,500. The cost will be borne by the county and borough. This contract was presented to Controller Kinsinger for approval at 4 o'clock yesterday afternoon, and he said that he would take it up today.

The contracts for county roads signed yesterday by the commissioners are: Wharton township, Uniontown Construction Company, \$30,000; Brownsville township, Bell-Boeckel Company, \$19,750; German township, Bell-Boeckel Company, \$26,750; Upper Tyrone township, Bell-Boeckel Company, \$40,100; Bullskin township, Bell-Boeckel Company, \$50,000; Washington township, Bell-Boeckel Company, \$31,200; South Union township, Bell-Boeckel Company, \$45,400.

FUNDS FOR MARKER

Estate to Provide \$40 Stone for Grave of Veteran.

Special to The Courier.
UNIONTOWN, April 13.—The administrator of the estate of the late Hawkins Firestone of Lower Tyrone township, asked the court to be allowed to spend \$40 of the funds of the estate to purchase a marker for the grave of Mr. Firestone. Judge J. C. Work in Orphans' Court today handed down an order in the estate, paying tribute to the memory of Mr. Firestone and making the marker for a marker to \$40. In his opinion, Judge Work said:

"The administrator requested the court to authorize him to purchase and have erected at the grave of the deceased a proper marker at a cost of thirty dollars."

"Hawkins Firestone was a soldier in the Civil War. At the close of the war he returned to his old home and assumed his former place among his old neighbors. He lived with them, won their confidence, commanded their respect until the time of his death. He left little of this world's goods but rich in memories of past services rendered to his country. We think the decision to purchase a proper marker at his grave at a cost of forty dollars."

In this estate Judge Work made an order for the distribution of a balance of \$211.63 as follows: Dan Little, bill of costs, \$21.00; Dan Little, for marker, \$40; Levi Firestone, \$26.53; Stoddard Firestone, \$26.59; George Firestone, \$26.59; Sarah Little, \$26.54; John Coll, \$8.86; William Coll, \$8.86; Bell Coll, \$8.87; William Martin, \$8.61; John Martin, \$8.65; Thomas Martin, \$8.65; Sarah Martin Kerns, \$8.66.

INSPECT WATER PLANT.

Three Connellmen Visit the McCoy Springs Reservoir.

Councilmen M. B. Pryce, John Dugan and James Gynna, accompanied Superintendent R. V. Little of the Connellville Water Company to the McCoy Springs reservoir yesterday afternoon to inspect the new filtration plant. The trip was made by automobile.

Council is holding a conference this afternoon in city hall. A regular meeting will be held tonight, at which 1,000 feet of hose will be bought and a garbage ordinance will be adopted.

Official Returns.
The official returns of the special election here on Tuesday confirm the unofficial count—535 for the bond issue and 266 against it.

There are about 3,500 depositors of the bank who had balances there at the time the institution closed January 15, 1915.

MAY REINQUIRE CLAIM

Sligo Mill Likely to Revert Back to Charles Davidson.

That the new owners of Sligo may relinquish claim to the property instead of filing an answer to the injunction proceedings started by Charles Davidson to prevent them from shipping away any more of the machinery, is the present outlook.

The injunction hearing has been twice postponed and it is likely that the plant will revert back to Mr. Davidson once again.

ONE-MAN CARS ARE TEMPORARILY OFF TARR BRANCH LINE

West Penn Will See if Two-Men Cars Bring More Traffic.

RESIDENTS SAY THEY WILL

President Stevens of Mount Pleasant Town Council Declares One-Man Cars Will Never Operate Again; Threatens Appeal to the State.

To test out the contention of residents of Mount Pleasant and vicinity that trolley cars operated by two men would be better patronized than the one-man cars that have been running between Mount Pleasant and Tarr, the West Penn has put two men on all cars. The residents claim traffic already has increased but the company officials will wait and see what the statement of receipts shows.

President Samuel P. Stevens of the Mount Pleasant council declares that one-man cars will not be operated again. If the West Penn decides to put them back on, he says, the Public Service Commission will be asked for a decision. Data for presentation to the commission has been compiled by Solicitor Ralph Hurst at the request of the commission.

If the Public Service Commission makes a decision, it will be state-wide in its effects and it is against the operation of such cars all of them will have to go.

The West Penn has contended that the traffic on this line is not great enough to warrant the expense of two men on these cars except during times when the travel is unusually heavy, as on Saturday and on holidays.

The complaint against the one-man car is principally because it is declared to be unsafe. A survey of the crossing at Rainey, where it is alleged that a car crossed without having the motorman flagged, is being made to be presented to the commission along with the other data.

WILL SOON RETIRE

A. W. Vanatta, Veteran Conductor, Plans to Go West.

I. F. and A. E. Vanatta of this city, are spending the remainder of the week with their uncle, A. W. Vanatta, formerly conductor on trains 5 and 6, last few weeks as a passenger conductor on the Baltimore & Ohio railroad, preparatory to retiring on May 1. He and his wife will make their future home at San Diego or Los Angeles, Cal., and may start a chicken farm.

A. W. Vanatta is conductor on trains 9 and 12, having succeeded Captain J. R. Porter on that run when the latter died some years ago. He was a former conductor on trains 5 and 6. Mr. Vanatta entered the service of the Baltimore & Ohio in 1877 as a baggage-master. He was promoted to a regular run as conductor in 1892. He is widely known and has a fine record in his 39 years of service.

Mr. Vanatta married Miss Alice White, daughter of Mrs. E. A. White of Connellville, in 1885. They have resided in Pittsburgh ever since.

Mr. and Mrs. Vanatta plan to leave for their new home in the West about May 15 and they are already breaking up housekeeping.

NO CLUES ARE FOUND

Police Can Discover No Traces of Supposed Suicide.

No trace of the man who was supposed to have jumped into the Yough river yesterday afternoon from the banks near Sodom has yet been found. The police were notified by George Helms who claims he saw the man jump from the bank while looking from a window of his house on Seventh street.

When the police searched the river near where Helms said he last saw the man no trace of him could be found nor could any tracks be seen. Helms persists that he saw the man jump into the river. Helms living in the vicinity says no one is missing from their colony.

TO GIVE SHAKESPEARE PLAYS.

English Classes of High School to Produce Poet's Works.

Members of the English classes of the high school will give excerpts from Shakespearean plays in the auditorium of the library hall tomorrow evening. Admission tickets are on sale by the students.

YOUNG DEER IS STONED BY BOYS; SEEKS REFUGE HERE

Finds a Haven in Stable of Laundry Company; Wild Life League Incensed.

A young deer, scared half to death and injured in several places, took refuge in the stable of the Connellville Steam Laundry on Willis road yesterday afternoon. Boys chasing the animal had struck it with stones, inflicting wounds of the nose, left eye, shoulders and hind legs, until it was hardly able to move.

Manager W. O. Adrian of the laundry, made the animal as comfortable as possible. At first it was very wild and would not allow him to approach. Once it tried to dash through a window. Finally, however, its fear was removed and it became very tame. The deer's cuts were bathed with peroxide and it was covered with straw in one of the horse stalls. Later separate quarters were provided for it in one corner of the stable.

Officers of the Wild Life League are incensed at the treatment the young deer in the mountains east of the city are subjected to at the hands of men and boys. The last penalty of the law will be imposed. There is a heavy fine for harming these animals.

FIRST GRADE EXAMS

Entire Class Undergoes Hardest Tests Here Today.

The first section of questions for first grade mine foremen's certificates was given by the examining board at the Old Fellows' Temple this morning. The whole class that took questions for the second grade certificates is taking the first grade examination.

This is the last day for tests for mine foremen's certificates, the last of questions being given this afternoon. Friday morning five boss examinations will be conducted. For the mine will take the test.

The questions this morning are: What are the requirements of the law regarding gas accumulations and their removal from the mine workings? Upon taking charge of a gaseous mine state briefly how you would ascertain to what extent the law is being complied with? When a mine foreman is unable to personally carry out the requirements of the law, pertaining to his duties, what action shall he take? What are the disadvantages and dangers due to improperly constructed pillars? The total weight of a pillar of a mine is 235 pounds, the sectional area equals 56 square feet; what is the reading of the water gauge? A volume of 100,000 cubic feet of air per minute is measured on the main return air way. It contains three per cent of marsh gas; what reduction of air would render the mixture explosive? What are the legal requirements regarding dusty conditions in gaseous mines?

38 AUTOS BURNED

Many Owners Lose Cars in Uniontown Garage Fire.

In a fire which burned the garage of the National Auto Company, located on Fayette street, Uniontown, last evening about 5 o'clock, 38 cars were destroyed. The entire loss is estimated at \$65,000, which is covered by loss that \$40,000 insurance.

There were 43 automobiles in the building at the time, and five which escaped from the flames were in the display room. The origin of the fire is not known but it is thought that it started in the "volanting" room, spreading over the building in an unexpected short time. No one was in the room at the time and it was not until Joseph Cronick, an employee, saw smoke coming up the elevator shaft that the fire was discovered.

The losses of the automobile owners amount to \$35,000 to the auto company for damage to cars, \$28,000, and damage to the building, \$6,000. The heaviest loss was probably Dr. C. M. Langan, who lost two automobiles. One of them had only been driven 275 miles and had just been put away for the fire was discovered.

E. B. SMALL BETTER

Man Struck by Lightning Recovering From Shock.

E. B. Small was removed yesterday afternoon from the home of Thomas Nee in Huston street to his home in Sycamore street. Today morning he was reported to be resting easily. He is under the care of a physician and will likely be confined to his home for several days.

Mr. Small came in contact with a live wire during a thunderstorm on Tuesday night.

INSTALLING SCALES

Smithfield Improvements for B. & O. Nearly Done.

The Baltimore & Ohio Railroad Company will probably be through with the work of installing a new scales at Smithfield in another week. The gang in charge of the work has been there for some time now and the job is almost completed.

After that work is finished a scales will be installed at Johnstown or more work will be done on Bridge 49 in the yards here.

Get Marriage Licenses

Thomas Joseph Curry and Catherine A. Doyle, both of Uniontown; Octave P. Cree and Carrie June Moser, both of Meadville; John P. Kenney and Cora Edith George, both of Shetter and Gladys Stichter, all of Greensburg, were granted marriage licenses in Cumberland yesterday.

County Commissioner Logan Rush is moving from his apartments in the Smith House to the residence on Fairmont avenue adjoining that of J. D. Madigan, which is being remodelled.

Railroad Men Paid

The Baltimore & Ohio is finishing up paying the Connellville drivers today. The West End has been paid. The Western Maryland will pay employees of this division tomorrow.

Condition Unchanged

Today at noon there was no change in the condition of William C. Bishop who is critically ill at the Cottage State Hospital.

MONARCH SCHOOL FIRE TRAP, STATE INSPECTORS FIND

Dunbar Township's Structure in Bad Shape, Experts Declare.

IT LOOKS LIKE A GARAGE

No Report Made to School Board but Building is Such That Inspectors Could Do Nothing But Condemn it as Unsafe in Case of a Fire.

Condemnation of the Monarch school building of Dunbar township will follow the inspection by Walter Lloyd and James S. Darr, state factory inspectors, yesterday. While no report was made to the school board on the condition of the structure, the inspectors could not do other than declare it a fire trap. They were even unable to make a recommendation that would tend to put it in safer condition.

The inspectors found the Monarch building after some little search for Mr. Darr says he was inclined to pass it by in the belief that it was a garage. Inside they found 300 pupils literally trapped like rats in case of a fire. There are no fire escapes, the means of egress are small. To get out of some of the rooms it is necessary to pass through others and in a third floor cupola was found a quantity of straw, carried there by birds, that would have filled two mattresses. If a bolt of lightning ever hits this cupola and ignites the straw, the 300 pupils will be in grave danger. Screens to keep the windows from being broken by mischievous boys by birds, are nailed to the sashes instead of being so that the children are trapped inside the rooms.

Inspector Lloyd, who had charge of the inspection, devoted only 10 minutes to the building but he says he saw enough in that short period to convince him of the danger the pupils are subjected to.

Inspector Lloyd will use photographs of the Monarch building in a lecture tour he is planning as an example of what is undesirable in a school building.

The inspection of the Monarch structure was made by the request of parents who feared that their children were endangered. Several Dunbar township school directors and Supervising Principal R. K. Smith were along.

Whether any change will be made this term is not known. The township school term has only about half a month more to run.

The Monarch building is one of the few Dunbar township buildings not thoroughly modern and it is destined to go. Dunbar township school is, in general rule, are better than those of any other township in the state.

SOME CARNIVAL

Circus and a Chautauqua, Rolled in One, Say Advance Notices.

Connellsville is not to lack for attractions when the Great Atlantic Carnival Company stages its week's engagement on the West Side the last week of this month. If the advance notices are to be believed, the carnival is advertised as having "Circus, carnival and chautauqua" attractions, and the fact that it lacks tabernacle features is probably due only to an oversight of the press agent.

So far the details of the various attractions—particularly the chautauqua feature—are lacking. So far as the educational features are concerned, it is not indicated whether they will include the Tyrolean warriors of W. Jawbones Bryan, both of which are topline chautauqua bookings.

PRISONER LOSES \$111.

Says He Met Several Men in Barroom and Roll is Gone.

L. E. Witt of Mount Pleasant was given a hearing before the mayor this morning on a drunkenness charge. He was fined \$5 which was paid

25 CENTS DESTROYS YOUR DANDRUFF AND STOPS FALLING HAIR
Save Your Hair! Make It Thick, Wavy and Beautiful—Try This!

This, brittle, colorless and scraggy hair is mute evidence of a neglected scalp, of dandruff—that awful scalp disease. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair to fall out. Then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair. Get a 25-cent bottle of Knowlton's Danderine from any drug store or mail order house. It is the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, an incomparable gloss and softness, but what will please you most will be after just a few weeks use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp—Adv.

SAVE YOUR HAIR AND KEEP YOUR JOB

Says Men are Paying More Attention to Hair Than Ever Before.

Tens of thousands of men are losing their hair daily and are ignoring the fact. Many a man has lost his job because he lost his hair.

Dust and dirt make dandruff and dandruff makes heads bald and bald heads are the first to go when business is poor.

Wash your hair at least once a week with an pure soap and frequently apply Parlsan Sage. Rubbing it thoroughly into the scalp.

Parlsan Sage will save your hair and promote a healthy growth. It quickly removes every trace of dandruff, hair loss, scalp itch and makes your head feel fine.

REWARD FOR ROBBER

Postal Authorities Think Bandit Has Come Back North.

Postmaster W. D. McGinnis has received word that H. Grady Webb, wanted in connection with the hold-up and robbery of a mail coach of Baltimore & Ohio train No. 1 at Central Station, West Virginia, on October 8, 1915, has been seen in cities of the south, and from his movements in that section it is thought that he may come back north. A reward of \$1,000 is offered for his capture.

MOUNT PLEASANT BOYS STRONG FOR MILITARY WORK

Students Will Undertake Their Own Training in Preparedness.

DRILLS HAVE ALREADY BEGUN

Captain Walter Evans Too Busy to Undertake This Work But the Boys Secure Armorer John Miller to Instruct Them; Other News Notes.

Special to The Courier.
MOUNT PLEASANT, April 13.—A dozen of students from the high school about sixteen years of age, have asked Armorer John Miller to give them military training. They have been given getting up exercises and some regular military drill. Captain Walter Evans stated that he being one of Superintendent Shaw's assistants, it is impossible for him to devote time to a high school organization of this kind but the boys being anxious for preparedness, have asked for the training themselves.
Ralph, the infant son of Mr. and Mrs. Norman Frost of Mullin avenue, died yesterday morning.
Rev. J. L. Updegraff left yesterday for Harrisburg.
Misses Hilda and Susan Fitzpatrick and Francis Hildegarde were guests of Miss Mary Kline in Greensburg.
Another carload of negroes was brought into the coke region here yesterday. For some time, owing to a shortage in diggers, it has been impossible to change the proper number of ovens and with coke in demand the negroes were imported from the south for this purpose.

SCRATCHED 40 YEARS HEADED IN ONE WEEK

Finally Cured by Using One Dollar
One of the most remarkable cures of the century. For ten years I suffered with eczema of the scalp, my head being covered with scales and scabs. I tried everything, recommended and everything advertised without relief until I bought a bottle of Amolox. It relieved the itching at once and one bottle entirely cured my eczema. I heartily and cheerfully recommend it to all sufferers of this terrible disease. James W. Seward, Brazil, Indiana.
Amolox ointment will quickly remove pimples on the face, blackheads, and clear up a muddy complexion. Trial size, 10c. A box of 100, 50c. Amolox is a powerful, safe, reliable, lasting for years, requires both Amolox solution and ointment to effect a cure. Recommended and guaranteed by the Connellsville Drug Co., Connellsville, Broadway Drug Co., Scotland, Pa.—Adv.

LOST HIS CASE

Because He Couldn't Find an Important Paper.
The other day, in Pittsburgh, an action at law, involving a large amount, hung upon the production of a certain paper. The defendant couldn't find it—knew he had it but didn't know where. He lost the case. The wisdom of keeping valuable papers in Safe Deposit is apparent. The strong vault of the First National of Connellsville affords absolute security and private boxes may be rented at small cost.—Adv.

KELLY POOL—Whose Turn to Buy? By BRIGGS

"Tux" is the genial smoke! There's vim and punch and get-there energy in every fragrant puff. Get the bustling, hustling spirit of "Tux" into your system and it'll give you an outlook on life fresh as a morning glory at 5 a. m

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

A whole lot of men at one time or another have tried to smoke a pipe—and used the wrong tobacco. Result—a hot tongue and "cold feet." Try again with the right tobacco—Tuxedo!

Tuxedo has made thousands of happy, contented pipe-smokers because it's so wonderfully mild and cannot burn, bite or blister the tongue or irritate the throat.

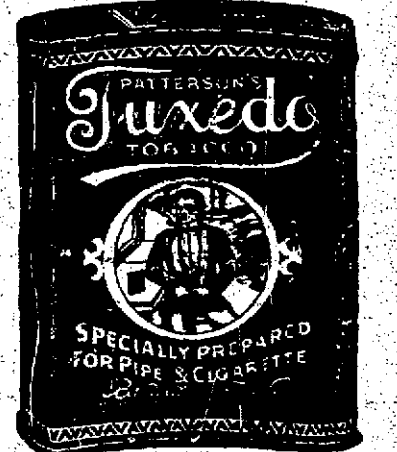

The rich, sun-ripened leaf for Tuxedo is aged 3 to 5 years. Then it's treated by the original "Tuxedo Process"—a doctor's discovery—which removes every particle of bite. There are many so-called processes—all are imitations of the "Tuxedo Process"—none has ever even approached the "Tuxedo Process" in making tobacco leaf mild and wholesome.

Try Tuxedo for a week and learn what it means to love your pipe.

\$2.25 Aluminum Griddle For 85 Cents in Cash

Special Offer to Karo Users
Read the Offer and Write Today So As to Be Sure To Get Your Griddle

BY special arrangement you can get this fine 10 1/2 inch Solid Aluminum griddle for less than the wholesale price.

Go to your grocer, get 50 cents worth of Karo and send us the labels and 85 cents and you'll get the Aluminum Griddle by prepaid parcel post.

You know Aluminum ware—you know how long it lasts, how much easier it is to cook with. It doesn't chip, it doesn't rust and it always looks so bright and clean and inviting.

You don't have to grease this Aluminum Griddle, it does not smoke up the house; it bakes griddle cakes and corn cakes crisp and light—the way you want your griddle cakes to be. And the cakes are far more digestible and better flavored.

At great expense we are seeking to place a Karo Aluminum Griddle in the homes of all Karo users, so that Karo—the famous spread for griddle cakes and waffles—may be served on the most deliciously baked cakes that can be made.

Last year the people of this country used 65,000,000 cans of Karo—the largest demand ever given any syrup.

That shows you what people who know Karo think of it, how much better they like it than any of the old kind of syrups.

Take advantage of this chance to get this solid Aluminum Griddle at a clear saving of \$1.40 in cash.

Get the Karo Today—and send us the labels and 85 cents (P. O. money order or stamps) at once. We will also send you free the Corn Products Cook Book.

THE CONDUIT QUESTION.

The narrow escape from death of a pedestrian who was struck by a live wire thrown to the street during a heavy thunderstorm this week brings to mind the fact that the Connelville public is constantly exposed to this danger and will not be relieved therefrom until the wires are put under ground.

The danger to human life from this source is not relatively great since accidents of this character do not often happen, nevertheless they happen too frequently and they are usually more deadly in effect. The overhead wires are also a trouble and a danger to firemen and others in case of fire. It is generally agreed that the wires in the business part of the city where they are numerous ought to go under ground, but upon what terms has been a puzzling problem. At least one public service corporation wants to put its wires under, but the others are indifferent, and it is no object to the city unless all the wires are buried.

The city seems to have large powers, but it is denied that it has the power to build its own conduit system and compel the companies to come into it. If this be true that power should be supplied by the next Legislature; if it is not true, the Council of Connelville should lose no time in legislating the wires under ground upon such reasonable and proper terms as will make all the "public service" companies want to come down off their poles.

The Courier has expressed itself on the conduit question before, and it is likely to do so again and again until some action is taken. There are some public questions which a faithful public newspaper must never permit the public administrators to forget.

GOOD ROADS IN GREENE.

"Cribbed, confined and confined," by the circulating bills of Little Greene for so many years, Waynesburg now eagerly longs for a means of communication with the throbbing, pulsating world outside. So keenly do our neighbors feel their isolation that the Democratic-Messenger in its editorial passion laments, "Without railroads and trolley lines we are literally hemmed in from early winter until late in the spring."

Having waited so long and having at last lost all hope that a broad-gauge railroad would provide an outlet, the Democratic-Messenger urges the people of Greene county to no longer delay in joining in the universal movement for improved roads. The project to construct a modern highway between Waynesburg and Rice Landing is commended as an improvement in comparison with which nothing would be so beneficial to the county, calling attention to the progressiveness of Fayette County in financing extensive road improvements and the missionary "good roads for the State of Greene" says:

Fayette county has recently sold \$200,000 worth of bonds to be used in building brick roads and Greene county could well afford to have its reasonable issue of bonds for highway construction. We believe that we have a honest and efficient board of county commissioners and under their management and direction let us have more road building. It is only twelve miles to Rice Landing, 150 hills in Greene. If we had a brick road to that point, large trucks could and would bring them to the door of the farmer. We are hoping for railroads in the near future of course, but a good brick road to the river will help bring them and would be a great convenience to many of our people. It has a dozen railroads. It has often been said the road helps those who help themselves. Greene county could help herself abundantly and she ought to. Let us start something. We feel it is not necessary to bring forth any arguments for "good roads." Every intelligent person knows their value and knows also why they have been told we get no state aid this year. But Greene county can and ought to act. Think about it. Talk about it and be ready to act upon it.

What the Democratic-Messenger perhaps some enterprising Greene county man will establish a jitney service between Waynesburg and Uniontown. An auto truck side line for freights of all kinds from Waynesburg to Rice Landing, then connecting with the broad-gauge railroad lines, might be another part of the enterprise. Thus Greene county would put herself on the map and compel the Pennsylvania Railroad Company to come across with a standard gauge railroad line.

In building its new road, however, the Greene county authorities should be careful to steer clear of the complications which seem to involve road improvement in Fayette county just now.

The two South Connelville boys who got out to see the wide, wide world got very hungry and homesick in two days' travel and were glad to get back to mother and three square meals per day with "pieces" in between.

Candidates for pit boss in the Connelville region must have 80% efficiency and 100% sobriety.

The Trotter speedway records another collision but no serious results. The serious results, however, are on their way.

Even the women are after Villa's scalp. No wonder he is playing the fox.

The importation of Southern negroes seems to be a simple solution of the Connelville coke region labor problem.

The Battle of Verdun is another explanation of the unfiled steel orders in the American mills. Modern military engagements waste a lot of metal.

The reappointment of James E. Roderick as chief of the State Department of Mines is another recognition of experience and efficiency.

The Democrats in Congress rolled the 40-million dollar Rivers and Harbors Pork Barrel through the House so fast that the Republican attempt to knock out the bung never touched it.

The Youngstown Sheet & Tube Company, which failed of absorption by the Cambria and other eastern steel concerns, has become an absorber itself. It has started out to become a little Trust of its own.

Richard Harding Davis died with his boots on.

The railroad brakeman who tried to push the Deacon bridge from the overhead with the bridge of his nose knows better now.

A Liberty woman whose house was on fire was allowed to climb upon the roof and put it out herself while the neighbors looked on. It seems that a Liberty woman is allowed all kinds of liberty.

New Jersey

By GEORGE FITCH.
Author of "At Good Old Slava."

New Jersey is a 7,500 square mile collection of cities, summer resorts and truck gardens situated just east of Philadelphia, and half a century west of New York, from which place it can easily be reached by hiring a guide and taking a ferry boat.

For its size, New Jersey is a good deal of a state. It has over 2,500,000 people and suburbs. About 25% of its population are in the summer resort business, but the rest make a honest living. Weaving, silk, making sewing machines, raising cucumbers and cranberries, and catching spawning automobiles with New York numbers on their hind axle. The most interesting of the state is one vast conglomeration of cities and towns, and is an overgrown meeting from New York City, from whose politics it is forever protected by the Hudson River. Nothing makes a Tammany chief so utterly downhearted as to stand on the banks of the Hudson and gaze across at thousands of perfectly good Democratic voters which have gone utterly to waste on President Wilson.

New Jersey is one of the charter members of the United States, and was first settled by the Swedes, who mistook the mosquitoes in its marshes for reindeer. It took an important part in the Revolution of 1776 and 1780. It has recently become quite prominent, having produced not only a champion football team, but a President. New Jersey has a son to whom the world owes a great debt. George Washington got his start by emigrating to New Jersey in an open

Mistook the mosquitoes for reindeer, beat, and culminating in a bunch of imported soldiers in the Revolution. Grover Cleveland lived in the state many years with great success, and James A. Garfield succeeded in living in it.

Newark is the metropolis of New Jersey. It is ten miles from New York, and can be reached by street car, canal, aeroplane, or by jumping from a through train. New Jersey is crossed at high speed by hundreds of trains daily, but very few people have solved the problem of getting off of them safely before reaching New York. New Jersey is famed for good roads, cranberries, sea beaches, Princeton College, Woodrow Wilson, Hoboken, Thomas A. Edison and his vast lighting canneries at East Orange, and for the octopus, which is a dread animal, which dwells in the home in the office buildings of the state and feeds on the rest of the shuddering country. Most insects despise the octopus and hunt it relentlessly with "quo warrants," injunctions and mandamuses; but New Jersey loves the beast and stables him as carefully and tenderly as if he were a race horse. For this reason, New Jersey is not madly loved throughout the country, and there is a general opinion that Patterson and his mosquitoes serve it right.

The Comfort that comes from a Perfection Smokeless Heater

ATLANTIC Rayolight

"Cuts the work of house cleaning in half," writes one bright little woman, referring to Atlantic Rayolight Oil. "Keeps my rugs and carpets bright—colors deep and brilliant." Thousands of women tell the same story.

And just as Atlantic Rayolight Oil lightens their housework, it will help you. You will find it as they have, unsurpassed for cleaning bathtubs polishing furniture, keeping away moths, cutting grease, removing rust, etc. But remember, it is

ATLANTIC Rayolight

not ordinary kerosene that works these wonders.

Atlantic Rayolight Oil burns to the last drop without smoke, smell or sputter; burns slowly and steadily, shedding a clear, white light. Splendid, too, for cooking and heating purposes; yields a flame of intense heat, yet is the most economical of fuels.

Ask for Atlantic Rayolight Oil by name. Costs the same as ordinary kerosene—the dealer who displays this sign

can always supply you.

Special to The Courier.
SCOTSDALE, April 12.—Over 100 men enjoyed the annual banquet that was held at the Elks' club last evening following the installation of officers by A. D. Albert of Latrobe, assisted by Thomas F. Hedges of Exburg Lodge No. 31. The officers installed were: Exalted ruler, Thomas Hill; esteemed leading knight, James Bates; esteemed loyal knight, William S. Hill; esteemed lecturing knight, W. S. McCune; secretary, James Kegan; treasurer, Harry Laughrey; Tyler, R. C. Crago, and trustees, R. E. Laughrey, J. P. Brennan, and C. H. Loucks; representative to the meeting of the grand lodge at Baltimore, C. P. Lewis.
After the lodge session the banquet began and the decorations were jonquils, Alabama snail and other spring flowers. Edward Kennedy was the toastmaster and was introduced by Secretary James Kegan. Dr. C. W. McKee made a very nice address when he presented the retiring exalted ruler, C. F. Lewis, with a gold chain. The 11 o'clock toast was given by James B. Millard of Connelville.

MUST CLEAN UP.
Clean-up notices have been placed over town asking that all persons clean up before the first of May, as on that day the city begins its clean-up work. This gives the people about three weeks to get ready and the Board of Health hopes that all persons will comply with this request so that it will not be necessary for it to clean up for the person.

BRUSH TEETH CORRECTLY

The right way to brush the teeth is to hold the bristles upright. In this way the crevices, as well as the surfaces are thoroughly cleaned, provided a few drops of hyclorite in a glass of water are used.
Particles of food which invite germs and microbes get into the tiny crevices. Hyclorite reaches every crevice, kills the germs and makes the mouth and breath sweet and clean.
You surely must use hyclorite and avoid decay of teeth. It is safe and with this very satisfying and effective mouth wash and you will escape throat troubles and other germ diseases.
Dentists are urging the use of hyclorite because it is such a pure, safe and remarkably effective antiseptic. It cools and soothes, cleanses and heals and is very economical. Hyclorite can be obtained from any drugist.

BEST FOR LIVER, BOWELS, STOMACH, HEADACHE, COLDS

They Live the Liver and Bowels and Straighten You Right Up.

Don't Be Bilious, Constipated, Sick With Headache and Stomach Sour.

Tonight, sure! Take Cascarets and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced. Wake up with your head clear, stomach sweet, breath right and feeling fine. Get rid of sick headache, biliousness, constipation, tired tongue, sour stomach, bad colds. Clear your skin, brighten your eyes, quicken your step and feel like doing a full day's work. Cascarets are better than salts, pills or cathartics because they don't shock the liver or gripe the bowels or cause inconvenience all the next day.

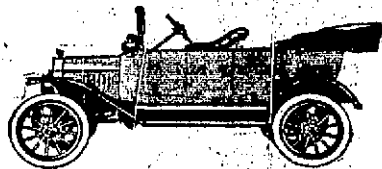

Others should give cross, sick, bilious, feverish children a whole Cascaret anytime as they can not injure the thirty feet, or tender bowels—Adv.

HE REPLY BRIEF IS FILED IN THE ALICIA RATE CASE

Railroads Contend That the
Lesser Mitigation to
This Mine

DOES NOT JUSTIFY LOWER RATE

That Extension to Alicia Would
be Followed by a Request to In-
clude the Whole Lower Connells-
ville Region in Pittsburgh District.

WASHINGTON, April 12.—Opposi-
tion to the extension of the Pittsburgh
district coal freight rates to W. Harry
Grove's Alicia mine on the ground
that, if granted, the request would
be made to have the rates extended
to other mines in the Lower Con-
necticut region, is made in a brief
filed with the Commerce
commission by John G. Tracer and
William W. Collins, Jr., attorneys for
the Monongahela Railroad Company
and the other respondent railroads
involved in the case. In this reply
brief the claim is made that there
is a difference in distance of but 500
feet between the Alicia mine and the
H. C. Price Coke Company's Bridge-
port mine which is held to be within
the Pittsburgh district, but that it is
not unusual to have this or less dif-
ference in distance between mines in
different groups, and that the line
between groups must be drawn some-
where. Oral hearing on the case is
set for April 17 before the Interstate
Commerce Commission here.

"When the particular boundary
here in question was fixed," says the
brief, "the Alicia mine, as a coal
shipping operation, did not exist. It
is only recently that the complainant
has asked or desired a rate to move
coal. If distance between mines is
to control, there can be no group
boundary, in any region where there
are mines in close proximity to one
another. The respondents have had
their experience in extending groups
little by little, each time taking in
just one more mine than the time be-
fore. To go no farther ahead than
the extension of the Pittsburgh rate
on cargo coal to include mines on the
west bank of the Monongahela river,
it will be recalled that the Clyde Coal
Company secured the extension of
the Pittsburgh rate to its mine, the
first one across the border.

"Under that extension the Pitt
Gas Coal Company, shipping from
Beaco, became the adjacent point in
the higher group; and it was taken
into the Pittsburgh group. As a re-
sult of that the rate here
contends that with his lesser mileage,
he is entitled to the Pittsburgh rate on
cargo coal. Such a proceeding as the
present one was prophesied when the
Pitt case was on trial, as the com-
missioner remarked in its decision:
"Defendants also fear that it would
naturally lead to requests for an ex-
tension of the Pittsburgh district to
include mines in the Connellsville
district located west of the Mononga-
hela river."

"The complainant here now con-
tends that the commission's exten-
sion of the Pittsburgh district to in-
clude the Clyde and Pitt Gas Coal
Company's mines is a justification
for applying the Pittsburgh rate to its
mine. It is this is so the commission,
in cutting the discrimination against
the Clyde and Pitt mines, must have
overshot the mark as to create a
discrimination against complainant's
mine. There is no attempt in this
case to show that the rate from the
complainant's mine, or from any other
mine in the Connellsville district is
unreasonable.

"Coinciding with the present rate
boundary, the quality and value of
the coal in the Pittsburgh district are
different from the Connellsville dis-
trict. The uses, markets and values
of the two coals do not meet or over-
lap under ordinary circumstances.
The complainant in this case is now
asking all of his coal in excess im-
mediately adjoining his mine shaft
and has been doing so ever since the
mine was opened. He freely states
that the market he is after is the by-
product users of coal."

PICKERSON RUN.

F. A. Tarr, superintendent of the
Florence mines, was transacting busi-
ness at Pittsburgh Tuesday morning.
Miss Mittie Lint is spending a week

At the Theatres

SOISSON THEATRE.

"THE RED CIRCLE"—The favor-
ite screen artist, Ruth Roland, appears
at the Soisson Theatre today in the
two reel thrilling detective drama,
"The Red Circle." It is the thirteenth
episode of this famous serial and this
chapter is called "Branded As a
Thief." Grace Cunard and Francis
Ford are the stars today in the Gold
Seal two reel drama, "Lady Raffles
Returns." It is written and produced
by these two clever artists and proves
to be an amazingly clever drama, of
the sort in which Miss Cunard excels.
A detective cleverly tells a woman
crook, but gallantly permits her to
escape after the clash of wits, in
which he wins. The Red drama "There
is No Place Like Home," tells of a
boy disappointed with his home life
that runs away with people who live
in a wagon. Suffice to say he is glad
to get back, as his life in the wagon
is a wretched one. The Red drama "The
Gasoline Habit," in which a family get a
Ford, which, however, lands in a big
oak tree. Tomorrow, Lottie Pickford
comes in the thirteenth episode of the
"Diamond From the Sky." This is
the last chapter of this gripping
drama. Saturday, the World Film
Corporation presents Curlye Black-
well in the five reel drama, "The
Clarion."

GLOBE THEATRE.

"THE DEPTHS"—The sixth epi-
sode of "The Strange Case of Mary
Page" is featured today at the Globe
Theatre. Mary Anderson is also appearing
in "La Paloma," a Broadway Favorite
attraction in three acts. Helen Gibson
in "The Switchman's Story," a rail-
road drama, concludes the bill. To-

morrow Blanche Sweet, one of the
most popular stars of the time, will
be featured in "The Ragamuffin," a
five act Paramount attraction. Miss
Sweet has gradually risen to the top
of the photo dramatic profession as
an artist of beauty and talent and in
this elaborate production will be seen
as a wait of the streets. Repplete with
dramatic action, tense situations and
exciting episode, "The Ragamuffin"
contains an earnest and emphatic plea
for universal life and opportunity.
Wm. C. DeMille, the author, has treat-
ed the subject of environment in a
startling, original and dramatic man-
ner. Jenny, as portrayed by Blanche
Sweet, from a lowly beginning over-
comes life's greatest temptations
through an inward struggle of refor-
mation.

REPUBLIC IRON & STEEL COMPANY A BIG SHIPPER

Raw Coal From the Lower Connellsville Region for Use

MAKING BY-PRODUCT COKE

Its Youngstown Plant: Three Mines Exclusively Devoted to This Activity While a Fourth Furnishes Supplies as Conditions Warrant

The Republic Iron & Steel Company is becoming one of the most important factors in the shipment of raw coal from the Lower Connellsville region for by-product coke making purposes. Three of its running plants in the region are now exclusively engaged in this activity and a fourth adds such tonnage as can be spared from its day to day belchive oven requirements. The most important operations are the Howwood and Martin plants in Nicholson township. The former was the most recently installed. It is located on Croder run, about three miles west of Smithfield and is reached by a branch railroad connecting with the Baltimore & Ohio railroad.

This operation was designed to develop part of a tract of about 600 acres of drift coal lying about and southward of the Woodside school house, known locally as the "Woodside" field. Since the operation was commenced, about three months ago, the development has been rapidly pushed. The output is now approximately 1,000 tons per day, all of which goes to the company's by-product coking plant at Youngstown.

The coal is mined largely by hand although one machine is now in use. The Martin plant at the mouth of Jacob's creek on the Monongahela river three miles west of Howwood, is the second largest coal shipping plant of the company. Originally designed as a coking proposition by its builders, the Bessemer Coke Company, the ovens were closed down shortly after the property was acquired by the Republic Iron & Steel Company, and the plant's activity has since been confined to shipping raw coal. The present output averages about 800 tons per day. The coal land embraced in the purchase of the Bessemer Coke Company before the plant was built, adjoins on the east a part of the "Woodside" tract which the Republic Iron & Steel Company had bought in 1915. The plant was placed in operation. The development of the two tracts will be divided between the Howwood and Martin plants, shipments from the latter being made over the Monongahela railroad.

Shortly after the "Woodside" tract was purchased the Republic Iron & Steel Company planned to construct a number of belchive coking plants for its development. The natural difficulties of securing different parts of the field by railroad caused the plans to be held in abeyance for a number of years. Meantime the Martin plant was purchased, which opened a way to operate the western section of the field. The construction of the by-product coke plant at Youngstown in 1915 made necessary a raw coal supply greater than the Martin plant could provide and the Howwood plant was decided upon to augment this supply and at the same time develop the eastern section of the "Woodside" field.

The Atcheson coke plant on the Fairmont branch of the Baltimore & Ohio railroad, in Sprichill township, was the pioneer coking operation south of Fairchance. It was built in 1897 by the late John F. Atcheson and subsequently sold to the Republic Iron & Steel Company. Coking operations were continued with more or less regularity for a number of years, but eventually the plant was closed down. Within the past four months extensive improvements have been under way with a view to adapting the plant to shipping coal exclusively. A new tipple has been built, an electric plant installed and a general overhauling of the mine equipment made. These improvements have not been fully completed but they have progressed far enough to permit shipments of from 100 to 150 tons of coal per day.

The largest mining plant of the Republic Iron & Steel Company is at Republic in Rodstown township. Four hundred bealve ovens are kept in constant operation, the product of which goes to the company's furnaces. When the conditions of car and labor supply permit raw coal is loaded at this plant for the Youngstown by-product operation. The shipments vary as to amount and frequency but on an average run about 20 cars per week. From the four mines of the company in the Lower Connellsville region the shipments of coal will this be seen to at present range from 12,000 to 15,000 tons per week.

The Youngstown by-product coke plant consists of 143 Koppers ovens having a yearly producing capacity of 712,000 tons of coke, requiring about 1,056,000 tons of coal. The plant has never been operated to full capacity. In 1915 the output was 379,104 tons, an increase of 169,288 tons over 1914, the first year in which the plant produced coke.

MACCABEES WILL PLAY.

Scottdale to be the Attraction on Local Floor Tonight.

The Maccabee basketball team will play the Scottdale Y. M. C. A. five on the local floor this evening. The Westmoreland county boys have a fast team and the game will be close. The Maccabee season is drawing to a close and there will not be many more games played in the Scottdale lineup with the Carrico, Lee, Munaw, Miller, Loughrey and Kelly. The preliminary game will begin at 8 o'clock and will be played between two girls' teams.
